# ACCESSORIZE YOUR HILL

## Tunnels

Accessorize your hill with a custom tunnel. The inverted 'U' shape design is more spacious than a culvert-type tunnel and designed to allow surfacing to be used along the bottom.

## Play Trails (PRECAST SIMPLE SET DESIGN)

Add a playful shortcut with a practical way back up to the top of the hill. Reduce risk by keeping kids away from the slide. It's super durable one-piece concrete and simple to install.

## Hop Rocks & Logs

Or any of the lower elements of our Rocks & Ropes – can be set directly onto the slope. UPC Parks' creatures and other themed elements may be placed directly on the sloped surface as well.
